## **BIOMARK DIAGNOSTICS INC. EXPANDS PHASE 3 CLINICAL TRIALS**

Vancouver, British Columbia – (November 5, 2014)–BioMark Diagnostics Inc. (“BioMark”) (CSE: BUX) is pleased to announce that BioMark has expanded its Phase 3 cancer screening clinical trials to include The National Institute of Cancer Research and Hospital in Bangladesh. The clinical trials are in the process of being registered with both [clinicaltrials.gov](http://clinicaltrials.gov) and the World Health Organization (WHO).

BioMark anticipates completing 50% of the 340 patient Phase 3 clinical trial by the first quarter of 2015. Following a successful completion of the clinical trial and regulatory health approval, BioMark will commence marketing its proprietary technologies in key global markets.

Rashid Ahmed , President & CEO, states: “This is a significant achievement for BioMark. Strong research collaborators such as The National Institute of Cancer Research and Hospital in Bangladesh, in addition to long-term partners such as St-Boniface Hospital Research, CancerCare Manitoba, Surrey Memorial Hospital, have been instrumental in moving our cancer diagnostic technology forward. We look forward to completing our trials in 2015 and to offer diagnostic options that can be used solo or to complement existing cancer detection and treatment technologies.”

### **About BioMark Diagnostics Inc.**

BioMark is developing proprietary, non-invasive, and accurate cancer diagnostic solutions which can help detect, monitor and assess treatment for cancer early and cost effectively. The technology can also be used for measuring response to treatment and potentially for serial monitoring for cancer survivors.

Further information about BioMark is available under its profile on the SEDAR website [www.sedar.com](http://www.sedar.com) and on the CSE website [www.thecse.ca](http://www.thecse.ca).
